

UNITED ATF SP-IV

Product Description:

United ATF SP-IV is a synthetic automatic transmission fluid that is specially formulated with high performance synthetic base oils and advanced additive technology specifically to provide optimum performance and protection for the automatic transmissions requirements for the ATF SP-IV specification that is the most common ATF used for Hyundai, Kia and Mitsubishi vehicles automatic transmissions.

United ATF SP-IV optimized friction properties provides smooth and comfortable gear shifting and prevents transmission vibration. Excellent thermal and oxidation stability keeps transmission clean to help provide outstanding performance even under severe driving conditions and extend fluid life. Ultra low-temperature fluidity helps to provide immediate protection at starting in cold weather and consume less fuel.

Applications / Benefits:

- ▣ Provides excellent oxidation and thermal stability for longer life.
- ▣ Superior wear protection to protect critical transmission components.
- ▣ Protection against corrosion and foaming.
- ▣ Outstanding low temperature fluidity.
- ▣ Improved friction retention.

Typical Characteristics:

Test Description	Method	
Specific Gravity @ 15 °C	ASTM D 4052	0.845
Flash Point, °C	ASTM D 92	198
Pour Point, °C	ASTM D 97	-45
Kinematic Viscosity, cSt @ 40°C	ASTM D 445	26.72
cSt @ 100°C	ASTM D 445	5.66
Viscosity Index	ASTM D 2270	160
Appearance	Visual	Red

Specifications, Approvals & Recommendations:

- HYUNDAI ATF SP-IV
- KIA ATF SP-IV
